Tamil, Malayalam, English

EXPERIENCE

.NET Developer | Keesa Express | Present

- Built and maintained production systems: OON SOFT (digital key purchasing), Furuasaan (custom clearance invoice), and Business Admin.
- Developed secure .NET Web APIs with authentication, authorization, business rules, and validation pipelines.
- Designed SQL Server schema, optimized stored procedures, and improved reporting/data retrieval performance.
- Delivered responsive frontend modules using Angular/React + TypeScript in agile release cycles.

.NET Developer Intern | Sri Sri Innovative

- Developed a Hospital Management desktop app using WPF and .NET with patient registration and appointment workflows.
- Contributed to School Management modules, reports, and data management with SQL Server.
- Worked on Praedium real-estate platform using .NET backend and React frontend.
- Followed Git workflow and collaborated with teams for stable sprint deliveries.

PROJECT HIGHLIGHTS

- WPF Hospital Management Project - .NET + WPF + SQL Server
- Custom Clearance Invoice Platform - Angular + .NET Web API + SQL Server
- Digital ESET Keys Purchasing - Angular/React + .NET Web API + SQL Server
- Business Admin Dashboard - Secure role-based admin and reporting modules
